

THEODORE PAYNE FOUNDATION

18TH ANNUAL NATIVE PLANT GARDEN TOUR

SPONSORSHIP FORM

Become a sponsor of our largest outreach event of the year! A beloved tradition since 2003, the Native Plant Garden Tour showcases the region's most beautiful and inspiring ecological landscaping. Building on the success of our virtual March 2020 tour, we're excited to offer an interactive at-home experience of a select group of gardens through the seasons. This event will feature striking footage of the gardens from both winter and spring, intermixed with interviews and expert panels about horticulture, design, biodiversity, and best practices for conserving our natural resources. To complete the year long journey, there will be a final celebration in fall of 2021. This virtual experience is innovative and unique, capturing the evolution and change of urban gardens and offering a deep connection to people, plants, and landscapes that restore nature in the city.

Would you like to be recognized as a sponsor for this celebration of urban biodiversity?

EVENT FEATURES

- Live-stream garden experiences (HD video, 360 degree views)
- Interviews with homeowners and designers
- Expert panels
- Website (curated collection of gardens through the seasons, photos, video, plant lists)

WHY SPONSOR?

- Connect with our growing community of gardeners, designers, landscapers, and plant enthusiasts
